

# Year 11 Information Evening

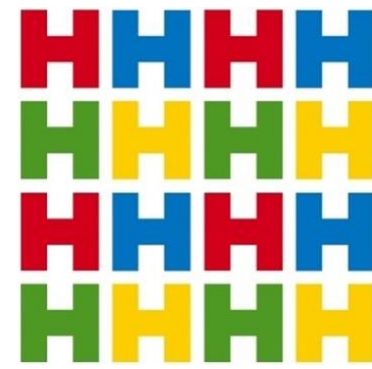

GCSE Statistics

# GCSE Statistics Structure

- ▶ All exam based (2 exams, both calculator)
- ▶ Exam board is Edexcel
- ▶ Any topic can be on either exam
- ▶ Some exam questions will be based around **how** to perform a statistical piece of coursework as there is no longer coursework to complete

# What are we doing?

- ▶ Regular exam practise in class. This may be a whole paper or just specific questions relating to that weeks work.
- ▶ Regularly looking into **how** to complete a full investigation and looking at the Statistical Enquiry Cycle
- ▶ Trial exams in term 2
- ▶ Lots of topics crossover with the GCSE Maths course, this will be made explicit when these topics are taught in maths lessons
- ▶ After the GCSE Maths exams in May/June, that lesson time will be allocated for extra Statistics lessons in the build up to the Statistics exam

# Any Questions?

If you have any additional questions about the GCSE Statistics course, please contact me at [jholmes@hgsc.co.uk](mailto:jholmes@hgsc.co.uk)
