

Handsworth Grange Community Sports College is an Operation Encompass School. This means that we have signed a joint agreement with South Yorkshire Police for them to notify us if one of our pupils has been exposed to, or involved in a domestic incident. This will ordinarily be done by the start of the next school day.

Operation Encompass ensures that a specifically trained member of the school safeguarding team is informed, in confidence to ensure the wellbeing of the child. School may then be able to make provisions or adjustments to support the young person and their family.
