

# **Appendices to Child Protection and Safeguarding Policy 2020-2021**

**These appendices are based on the Department for Education's statutory guidance, Keeping Children Safe in Education.**

### **Appendix 1: types of abuse**

See also: [Abuse & Neglect, Sept 20A](#)

Abuse, including neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap.

**General Definition:** An abused child is someone under the age of 18 years who has suffered physical injury, physical neglect, non-organic failure to thrive, emotional or sexual abuse which the person or persons who had custody, charge or care of the child either caused (acts of commission) or knowingly failed to prevent (acts of omission).

Some children will be deemed to be at particular risk where another child in the household has been harmed, or the household contains, or is regularly visited by, a known abuser (Person Posing a Risk to Children).

**Physical abuse** may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

#### **Possible signs and indicators of Physical Abuse may include:**

- Injuries that are not consistent with the explanation offered
- Presence of several injuries that are at various stages of healing
- Repeated injuries over a period of time
- Injuries that form the shape of a pattern (buckle, hand, iron, teeth, cigarette burns)
- Runaway attempts or fear of going home
- Extremely aggressive or withdrawn
- Drug/alcohol misuse
- Depression

**Emotional abuse** is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Emotional abuse may involve:

Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person

Not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate

Age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction

Seeing or hearing the ill-treatment of another

Serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children

**Possible signs and indicators of Emotional Abuse may include:**

- Bed-wetting or soiling that has no medical cause
- Has not attained significant developmental milestones
- Tearful, has low self-esteem
- Symptoms of depression, anxiety, withdrawal or aggression
  
- Self-harm, suicide attempts, engaging in drug or alcohol misuse
- Adult constantly calls the child names, labels the child or publicly humiliates them
- Adult has unrealistic expectations of the child
- Adult involves the child in 'adult issues' such as separation or access issues

**Sexual abuse** involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether the child is aware of what is happening. The activities may involve:

Physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing

Non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet)

Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

**Possible signs and indicators of Sexual Abuse may include:**

- Self-harm
- Eating disorders
- Sexually transmitted disease(s)
- Sudden lack of interest in friends or activities
- Withdrawal from friends and family
- Goes missing
- Truancy and / or running away from home
- Suicide attempts
- Drug / alcohol misuse

**Neglect** is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy because of maternal substance abuse.

Once a child is born, neglect may involve a parent or carer failing to:

Provide adequate food, clothing and shelter (including exclusion from home or abandonment)

Protect a child from physical and emotional harm or danger

Ensure adequate supervision (including the use of inadequate caregivers)

Ensure access to appropriate medical care or treatment

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

**Possible signs and indicators of Neglect may include:**

- Unattended medical appointments
- Lack of supervision
- Nutritional deficiencies
- Inappropriate dress for weather conditions
- Developmental delays
- Not attending school
- Constant hunger or steals food
- Abandonment
- Lack of parental participation and interest

## Appendix 2: safer recruitment and DBS checks – policy and procedures

See also:

[Safer Recruitment, Sept 20A](#)

We will record all information on the checks carried out in the school's single central record (SCR). Copies of these checks, where appropriate, will be held in individuals' personnel files. We follow requirements and best practice in retaining copies of these checks, as set out below.

### **New staff**

When appointing new staff, we will:

- Verify their identity
- Obtain (via the applicant) an enhanced Disclosure and Barring Service (DBS) certificate, including barred list information for those who will be engaging in regulated activity (see definition below). We will not keep a copy of this for longer than 6 months
- Obtain a separate barred list check if they will start work in regulated activity before the DBS certificate is available
- Verify their mental and physical fitness to carry out their work responsibilities
- Verify their right to work in the UK. We will keep a copy of this verification for the duration of the member of staff's employment and for 2 years afterwards
- Verify their professional qualifications, as appropriate
- Ensure they are not subject to a prohibition order if they are employed to be a teacher
- Carry out further additional checks, as appropriate, on candidates who have lived or worked outside of the UK, including (where relevant) any teacher sanctions or restrictions imposed by a European Economic Area professional regulating authority, and criminal records checks or their equivalent
- Check that candidates taking up a management position are not subject to a prohibition from management (section 128) direction made by the secretary of state
- We will ask for written information about previous employment history and check that information is not contradictory or incomplete.
- We will seek references on all short-listed candidates, including internal candidates, before interview. We will scrutinise these and resolve any concerns before confirming appointments. The references requested will ask specific questions about the suitability of the applicant to work with children.

**Regulated activity** means a person who will be:

- Responsible, on a regular basis in a school or college, for teaching, training, instructing, caring for or supervising children; or
- Carrying out paid, or unsupervised unpaid, work regularly in a school or college where that work provides an opportunity for contact with children; or
- Engaging in intimate or personal care or overnight activity, even if this happens only once and regardless of whether they are supervised or not

### **Existing staff**

- If we have concerns about an existing member of staff's suitability to work with children, we will carry out all the relevant checks as if the individual was a new member of staff. We will also do this if an individual moves from a post that is not regulated activity to one that is.
- We will refer to the DBS anyone who has harmed, or poses a risk of harm, to a child or vulnerable adult where:
  - We believe the individual has engaged in [relevant conduct](#); or
  - The individual has received a caution or conviction for a relevant offence, or there is reason to believe the individual has committed a listed relevant offence, under the [Safeguarding Vulnerable Groups Act 2006 \(Prescribed Criteria and Miscellaneous Provisions\) Regulations 2009](#); or
  - The 'harm test' is satisfied in respect of the individual (i.e. they may harm a child or vulnerable adult or put them at risk of harm); and
  - The individual has been removed from working in regulated activity (paid or unpaid) or would have been removed if they had not left

### **Agency and third-party staff**

- We will obtain written notification from any agency or third-party organisation that it has carried out the necessary safer recruitment checks that we would otherwise perform. We will also check that the person presenting themselves for work is the same person on whom the checks have been made.

### **Contractors**

- We will ensure that any contractor, or any employee of the contractor, who is to work at the school has had the appropriate level of DBS check (this includes contractors who are provided through a PFI or similar contract). This will be:
  - An enhanced DBS check with barred list information for contractors engaging in regulated activity
  - An enhanced DBS check, not including barred list information, for all other contractors who are not in regulated activity but whose work provides them with an opportunity for regular contact with children
- We will obtain the DBS check for self-employed contractors.
- We will not keep copies of such checks for longer than 6 months.
- Contractors who have not had any checks will not be allowed to work unsupervised or engage in regulated activity under any circumstances.
- We will check the identity of all contractors and their staff on arrival at the school.

### **Trainee/student teachers**

- Where applicants for initial teacher training are salaried by us, we will ensure that all necessary checks are carried out.
- Where trainee teachers are fee-funded, we will obtain written confirmation from the training provider that necessary checks have been carried out and that the trainee has been judged by the provider to be suitable to work with children.

### **Volunteers**

We will:

- Never leave an unchecked volunteer unsupervised or allow them to work in regulated activity
- Obtain an enhanced DBS check with barred list information for all volunteers who are new to working in regulated activity
- Carry out a risk assessment when deciding whether to seek an enhanced DBS check without barred list information for any volunteers not engaging in regulated activity. We will retain a record of this risk assessment

### **Governors**

- All governors, trustees, local governors and members will have an enhanced DBS check without barred list information.
- They will have an enhanced DBS check with barred list information if working in regulated activity.
- The chair of the board will have their DBS check countersigned by the secretary of state.
- All proprietors, trustees, local governors and members will also have the following checks:
  - A section 128 check (to check prohibition on participation in management under [section 128 of the Education and Skills Act 2008](#)). [Section 128 checks are only required for local governors if they have retained or been delegated any management responsibilities.]
  - Identity
  - Right to work in the UK
  - Other checks deemed necessary if they have lived or worked outside the UK

### **Staff working in alternative provision settings**

- Where we place a student with an alternative provision provider, we obtain written confirmation from the provider that they have carried out the appropriate safeguarding checks on individuals working there that we would otherwise perform.

### **Adults who supervise students on work experience**

- When organising work experience, we will ensure that policies and procedures are in place to protect children from harm.
- We will also consider whether it is necessary for barred list checks to be carried out on the individuals who supervise a student under 16 on work experience. This will depend on the specific circumstances of the work experience, including the nature of the supervision, the frequency of the activity being supervised, and whether the work is regulated activity.

### **Students staying with host families**

- Where the school makes arrangements for students to be provided with care and accommodation by a host family to which they are not related (for example, during a foreign exchange visit), we will request enhanced DBS checks with barred list information on those people.

- Where the school is organising such hosting arrangements overseas and host families cannot be checked in the same way, we will work with our partner schools abroad to ensure that similar assurances are undertaken prior to the visit.

### **Appendix 3: allegations of abuse made against staff**

See also: [Allegations of Abuse against Staff & Volunteers in Education Settings, Sept 20A](#)

This section of this policy applies to all cases in which it is alleged that a current member of staff, including a supply teacher or volunteer, has:

Behaved in a way that has harmed a child, or may have harmed a child, or

Possibly committed a criminal offence against or related to a child, or

Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, or

Behaved or may have behaved in a way that indicates they may not be suitable to work with children

It applies regardless of whether the alleged abuse took place in the school. Allegations against a teacher who is no longer teaching and historical allegations of abuse will be referred to the police.

We will deal with any allegation of abuse against a member of staff or volunteer very quickly, in a fair and consistent way that provides effective child protection while also supporting the individual who is the subject of the allegation.

Our procedures for dealing with allegations will be applied with common sense and judgement.

#### **Suspension of the accused until the case is resolved**

Suspension will not be the default position, and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that it might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

- Redeployment within the school so that the individual does not have direct contact with the child or children concerned
- Providing an assistant to be present when the individual has contact with children
- Redeploying the individual to alternative work in the school so that they do not have unsupervised access to children
- Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment and parents have been consulted
- Temporarily redeploying the individual to another role in a different location, for example to an alternative school or other work for the MAT.

#### **Definitions for outcomes of allegation investigations**

**Substantiated:** there is sufficient evidence to prove the allegation

**Malicious:** there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive

**False:** there is sufficient evidence to disprove the allegation

**Unsubstantiated:** there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)

**Unfounded:** to reflect cases where there is no evidence or proper basis which supports the allegation being made

### **Procedure for dealing with allegations**

In the event of an allegation that meets the criteria above, the headteacher (or chair of governors where the headteacher is the subject of the allegation) – the '**case manager**' – will take the following steps:

- Immediately discuss the allegation with the designated officer at the local authority. This is to consider the nature, content and context of the allegation and agree a course of action, including whether further enquiries are necessary to enable a decision on how to proceed, and whether it is necessary to involve the police and/or children's social care services. (The case manager may, on occasion, consider it necessary to involve the police *before* consulting the designated officer – for example, if the accused individual is deemed to be an immediate risk to children or there is evidence of a possible criminal offence. In such cases, the case manager will notify the designated officer as soon as practicably possible after contacting the police)
- Inform the accused individual of the concerns or allegations and likely course of action as soon as possible after speaking to the designated officer (and the police or children's social care services, where necessary). Where the police and/or children's social care services are involved, the case manager will only share such information with the individual as has been agreed with those agencies
- Where appropriate (in the circumstances described above), carefully consider whether suspension of the individual from contact with children at the school is justified or whether alternative arrangements such as those outlined above can be put in place. Advice will be sought from the designated officer, police and/or children's social care services, as appropriate

**If immediate suspension is considered necessary**, agree and record the rationale for this with the designated officer. The record will include information about the alternatives to suspension that have been considered, and why they were rejected. Written confirmation of the suspension will be provided to the individual facing the allegation or concern within 1 working day, and the individual will be given a named contact at the school and their contact details

**If it is decided that no further action is to be taken** in regard to the subject of the allegation or concern, record this decision and the justification for it and agree with the designated officer what information should be put in writing to the individual and by whom, as well as what action should follow both in respect of the individual and those who made the initial allegation

**If it is decided that further action is needed**, take steps as agreed with the designated officer to initiate the appropriate action in school and/or liaise with the police and/or children's social care services as appropriate

Provide effective support for the individual facing the allegation or concern, including appointing a named representative to keep them informed of the progress of the case and considering what other support is appropriate.

Inform the parents or carers of the child/children involved about the allegation as soon as possible if they do not already know (following agreement with children's social care services)

and/or the police, if applicable). The case manager will also inform the parents or carers of the requirement to maintain confidentiality about any allegations made against teachers (where this applies) while investigations are ongoing. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice

Keep the parents or carers of the child/children involved informed of the progress of the case and the outcome, where there is not a criminal prosecution, including the outcome of any disciplinary process (in confidence)

Make a referral to the DBS where it is thought that the individual facing the allegation or concern has engaged in conduct that harmed or is likely to harm a child, or if the individual otherwise poses a risk of harm to a child

If the school is made aware that the secretary of state has made an interim prohibition order in respect of an individual, we will immediately suspend that individual from teaching, pending the findings of the investigation by the Teaching Regulation Agency.

Where the police are involved, wherever possible the multi academy trust will ask the police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the school's disciplinary process, should this be required at a later point.

### **Additional considerations for supply staff**

If there are concerns or an allegation is made against someone not directly employed by the school, such as supply staff provided by an agency, we will take the actions below in addition to our standard procedures.

We will not decide to stop using a supply teacher due to safeguarding concerns without finding out the facts and liaising with our local authority designated officer to determine a suitable outcome

The governing board will discuss with the agency whether it is appropriate to suspend the supply teacher, or redeploy them to another part of the school, while the school carries out the investigation

We will involve the agency fully, but the school will take the lead in collecting the necessary information and providing it to the local authority designated officer as required

We will address issues such as information sharing, to ensure any previous concerns or allegations known to the agency are taken into account (we will do this, for example, as part of the allegations management meeting or by liaising directly with the agency where necessary)

When using an agency, we will inform them of our process for managing allegations, and keep them updated about our policies as necessary, and will invite the agency's HR manager or equivalent to meetings as appropriate.

### **Timescales**

- Any cases where it is clear immediately that the allegation is unsubstantiated or malicious will be resolved within 1 week
- If the nature of an allegation does not require formal disciplinary action, we will institute appropriate action within 3 working days
- If a disciplinary hearing is required and can be held without further investigation, we will hold this within 15 working days

## **Specific actions**

### **Action following a criminal investigation or prosecution**

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the police and/or children's social care services.

### **Conclusion of a case where the allegation is substantiated**

If the allegation is substantiated and the individual is dismissed or the school ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the case manager and the school's personnel adviser will discuss with the designated officer whether to make a referral to the DBS for consideration of whether inclusion on the barred lists is required. If they think that the individual has engaged in conduct that has harmed (or is likely to harm) a child, or if they think the person otherwise poses a risk of harm to a child, they must make a referral to the DBS.

If the individual concerned is a member of teaching staff, the case manager and personnel adviser will discuss with the designated officer whether to refer the matter to the Teaching Regulation Agency to consider prohibiting the individual from teaching.

### **Individuals returning to work after suspension**

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this.

The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the school.

### **Unsubstantiated or malicious allegations**

If an allegation is shown to be deliberately invented, or malicious, the headteacher, or other appropriate person in the case of an allegation against the headteacher, will consider whether any disciplinary action is appropriate against the student(s) who made it, or whether the police should be asked to consider whether action against those who made the allegation might be appropriate, even if they are not a student.

## **Confidentiality**

The school will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the local authority's designated officer, police and children's social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

## **Record-keeping**

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above and store them on the individual's confidential personnel file for the duration of the case. Such records will include:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken, and decisions reached (and justification for these, as stated above)

If an allegation or concern is not found to have been malicious, the school will retain the records of the case on the individual's confidential personnel file and provide a copy to the individual.

Where records contain information about allegations of sexual abuse, we will preserve these for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry. We will retain all other records at least until the individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

The records of any allegation that is found to be malicious will be deleted from the individual's personnel file.

## **References**

When providing employer references, we will not refer to any allegation that has been proven to be false, unsubstantiated or malicious, or any history of allegations where all such allegations have been proven to be false, unsubstantiated or malicious.

## **Learning lessons**

After any cases where the allegations are *substantiated*, we will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the school's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual

## **Appendix 4: specific safeguarding issues**

This appendix is based on the advice in annex A of Keeping Children Safe in Education –and locally agreed procedures set out in the Sheffield Children Safeguarding policies, procedures and guidance.

### **Children missing from education**

[Children missing from education, home or care, Sept 20A](#)

A child going missing from education, particularly repeatedly, can be a warning sign of a range of safeguarding issues. This might include abuse or neglect, such as sexual abuse or exploitation or child criminal exploitation, or issues such as mental health problems, substance abuse, radicalisation, FGM or forced marriage.

There are many circumstances where a child may become missing from education, but some children are particularly at risk. These include children who:

- Are at risk of harm or neglect
- Are at risk of forced marriage or FGM
- Come from Gypsy, Roma, or Traveller families
- Come from the families of service personnel
- Go missing or run away from home or care
- Are supervised by the youth justice system
- Cease to attend a school
- Come from new migrant families

We will follow our procedures for unauthorised absence and for dealing with children who go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of going missing in future. This includes informing the local authority if a child leaves the school without a new school being named, and adhering to requirements with respect to sharing information with the local authority, when applicable, when removing a child's name from the admission register at non-standard transition points.

Staff will be trained in signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns which may be related to being missing, such as travelling to conflict zones, FGM and forced marriage.

If a staff member suspects that a child is suffering from harm or neglect, we will follow local child protection procedures, including with respect to making reasonable enquiries. We will make an immediate referral to the local authority children's social care team, and the police, if the child is suffering or likely to suffer from harm, or in immediate danger.

### **Child criminal exploitation**

[Child Criminal & Sexual Exploitation, Sept 20A](#)

Child criminal exploitation (CCE) is a form of abuse where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into criminal activity, in exchange for something the victim needs or wants, and/or for the financial or other advantage of the perpetrator or facilitator, and/or through violence or the threat of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. It does not always involve physical contact and can happen online. For example, young people may be forced to work in cannabis factories, coerced into moving drugs or money across the country (**county lines**), forced to shoplift or pickpocket, or to threaten other young people.

**Indicators of CCE can include a child:**

- Appearing with unexplained gifts or new possessions
- Associating with other young people involved in exploitation
- Suffering from changes in emotional wellbeing
- Misusing drugs and alcohol
- Going missing for periods of time or regularly coming home late
- Regularly missing school or education
- Not taking part in education

If a member of staff suspects CCE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

**County Lines**

County Lines is the police term for gangs supplying drugs to urban areas using a dedicated mobile phone line or 'deal lines'. Children are then used to move drugs and money.

The following are typical vulnerabilities in children **prior** to exploitation:

- Living in chaotic or dysfunctional household (Parental substance abuse, domestic abuse, parental mental health issues, parental criminality)
- History of abuse
- Recent loss or bereavement
- Gang association
- Learning disabilities
- Low self-esteem or self-confidence
- Attending school with young people who are exploited

The following signs and behaviour are generally seen in children who are **already** being exploited:

- Missing from home or care
- Physical injuries
- Drug or alcohol misuse
- Involvement in offending
- Absent from school
- Repeat sexually-transmitted infections, pregnancy and terminations
- Estranged from their family
- Receipt of gifts from unknown sources

## **Child sexual exploitation**

Child sexual exploitation (CSE) is a form of abuse where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity, in exchange for something the victim needs or wants and/or for the financial advantage or increased status of the perpetrator or facilitator. It may, or may not, be accompanied by violence or threats of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. Children or young people who are being sexually exploited may not understand that they are being abused. They often trust their abuser and may be tricked into believing they are in a loving, consensual relationship.

CSE can include both physical contact (penetrative and non-penetrative acts) and non-contact sexual activity. It can also happen online. For example, young people may be persuaded or forced to share sexually explicit images of themselves, have sexual conversations by text, or take part in sexual activities using a webcam. CSE may also occur without the victim's immediate knowledge, for example through others copying videos or images.

In addition to the CCE indicators above, indicators of CSE can include a child:

- Having an older boyfriend or girlfriend
- Suffering from sexually transmitted infections or becoming pregnant

If a member of staff suspects CSE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

## **Self-harm and suicide**

Any child who self-harms or expresses thoughts about this or about suicide has to be taken seriously and appropriate help and intervention should be offered at that point. Definitions from the Mental Health Foundation (2003) are:

- Deliberate self-harm is self-harm without suicidal intent, resulting in non-fatal injury
- Attempted suicide is self-harm with intent to take life, resulting in non-fatal injury
- Suicide is self-harm, resulting in death

Informed consent to share information should be sought if the child is competent unless:

- The situation is urgent or seeking consent is likely to cause serious harm to someone or prejudice the prevention or detection of serious crime

If consent is refused or cannot be sought, it should still be shared if:

- There is reason to believe that otherwise it will result in serious harm to a child or young person
- The risk is sufficiently great to outweigh the harm
- There is a pressing need to share the information

**If a competent young person wishes to limit information to their parents/carers or to withhold information, their wishes should be respected unless the conditions above apply.**

## **Domestic abuse**

[Domestic Abuse, Sept 20A](#)

Children can witness and be adversely affected by domestic abuse and/or violence at home where it occurs between family members. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Older children may also experience domestic abuse and/or violence in their own personal relationships.

Exposure to domestic abuse and/or violence can have a serious, long-lasting emotional and psychological impact on children.

If police are called to an incident of domestic abuse and any children in the household have experienced the incident, the police will inform the key adult in school (usually the designated safeguarding lead) before the child or children arrive at school the following day. This is the procedure where police forces are part of [Operation Encompass](#). An operation encompass letter will be sent to the DSL through Anycomms.

The DSL will provide support according to the child's needs and update records about their circumstances.

## **Homelessness**

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare.

The DSL [and deputies] will be aware of contact details and referral routes in to the local housing authority so they can raise/progress concerns at the earliest opportunity (where appropriate and in accordance with local procedures).

Where a child has been harmed or is at risk of harm, the DSL will also make a referral to children's social care.

## **So-called 'honour-based' abuse (including FGM and forced marriage)**

[Abuse linked to faith & cultural practice, Sept 20A](#)

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes committed to protect or defend the honour of the family and/or community, including FGM, forced marriage, and practices such as breast ironing.

Abuse committed in this context often involves a wider network of family or community pressure and can include multiple perpetrators.

All forms of HBA are abuse and will be handled and escalated as such. All staff will be alert to the possibility of a child being at risk of HBA or already having suffered it. If staff have a concern, they will speak to the DSL, who will activate local safeguarding procedures.

Indicators:

- Children may truant to avoid family and relatives knowing where they are

- Children may be isolated, depressed and there may be concerns about self-harming behaviour
- Families may continue to feel 'shame' and the risks may transfer to children or siblings
- Children may be excessively restricted in their movements; grounded permanently
- Denial of access to internet, phones, friends, passport
- Children may be stopped from seeing their mother

## **FGM**

The DSL will make sure that staff have access to appropriate training to equip them to be alert to children affected by FGM or at risk of FGM.

The Safeguarding and Child Protection policy sets out the procedures to be followed if a staff member discovers that an act of FGM appears to have been carried out or suspects that a student is at risk of FGM.

### **Indicators that FGM has already occurred include:**

- A student confiding in a professional that FGM has taken place
- A mother/family member disclosing that FGM has been carried out
- A family/student already being known to social services in relation to other safeguarding issues

### **A girl:**

- Having difficulty walking, sitting or standing, or looking uncomfortable
- Finding it hard to sit still for long periods of time (where this was not a problem previously)
- Spending longer than normal in the bathroom or toilet due to difficulties urinating
- Having frequent urinary, menstrual or stomach problems
- Avoiding physical exercise or missing PE
- Being repeatedly absent from school, or absent for a prolonged period
- Demonstrating increased emotional and psychological needs – for example, withdrawal or depression, or significant change in behaviour
- Being reluctant to undergo any medical examinations
- Asking for help, but not being explicit about the problem
- Talking about pain or discomfort between her legs

### **Potential signs that a student may be at risk of FGM include:**

- The girl's family having a history of practising FGM (this is the biggest risk factor to consider)
- FGM being known to be practised in the girl's community or country of origin
- A parent or family member expressing concern that FGM may be carried out
- A family not engaging with professionals (health, education or other) or already being known to social care in relation to other safeguarding issues

### **A girl:**

- Having a mother, older sibling or cousin who has undergone FGM

- Having limited level of integration within UK society
- Confiding to a professional that she is to have a "special procedure" or to attend a special occasion to "become a woman"
- Talking about a long holiday to her country of origin or another country where the practice is prevalent, or parents stating that they or a relative will take the girl out of the country for a prolonged period
- Requesting help from a teacher or another adult because she is aware or suspects that she is at immediate risk of FGM
- Talking about FGM in conversation – for example, a girl may tell other children about it (although it is important to consider the context of the discussion)
- Being unexpectedly absent from school
- Having sections missing from her 'red book' (child health record) and/or attending a travel clinic or equivalent for vaccinations/anti-malarial medication

The above indicators and risk factors are not intended to be exhaustive.

### **Forced marriage**

Forcing a person into marriage is a crime. A forced marriage is one entered without the full and free consent of one or both parties and where violence, threats, or any other form of coercion is used to cause a person to enter a marriage. Threats can be physical or emotional and psychological.

Staff will receive training around forced marriage and the presenting symptoms. We are aware of the 'one chance' rule, i.e. we may only have one chance to speak to the potential victim and only one chance to save them.

If a member of staff suspects that a student is being forced into marriage, they will speak to the student about their concerns in a secure and private place. They will then report this to the DSL.

The DSL will:

- Speak to the student about the concerns in a secure and private place
- Activate the local safeguarding procedures and refer the case to the local authority's designated officer
- Seek advice from the Forced Marriage Unit on 020 7008 0151 or [fmfu@fco.gov.uk](mailto:fmfu@fco.gov.uk)
- Refer the student to an education welfare officer, pastoral tutor, learning mentor, or school counsellor, as appropriate

Indications that a child may be at risk of being forced into marriage may encompass some of the following:

- Request for extended leave of absence and failure to return from visits to country of origin
- Fear about forthcoming school holidays
- Surveillance by siblings or family members at school
- Being withdrawn from school by those with parental responsibility
- Not allowed to attend extra-curricular activities

Prevented from going on to higher education

## Preventing radicalisation

[Preventing extremism & radicalisation, Sept 20A](#)

**Radicalisation** refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups

**Extremism** is vocal or active opposition to fundamental British values, such as democracy, the rule of law, individual liberty, and mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces

**Terrorism** is an action that:

- Endangers or causes serious violence to a person/people;
- Causes serious damage to property; or
- Seriously interferes or disrupts an electronic system

The use or threat of terrorism must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

Schools have a duty to prevent children from being drawn into terrorism. The DSL will undertake Prevent awareness training and make sure that staff have access to appropriate training to equip them to identify children at risk.

We will assess the risk of children in our school being drawn into terrorism. This assessment will be based on an understanding of the potential risk in our local area, in collaboration with our local safeguarding partners and local police force.

We will ensure that suitable internet filtering is in place, and equip our students to stay safe online at school and at home.

There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. Radicalisation can occur quickly or over a long period.

Staff will be alert to changes in students' behaviour.

The government website [Educate Against Hate](#) and charity [NSPCC](#) say that signs that a student is being radicalised can include:

- Refusal to engage with, or becoming abusive to, peers who are different from themselves
- Becoming susceptible to conspiracy theories and feelings of persecution
- Changes in friendship groups and appearance
- Rejecting activities, they used to enjoy
- Converting to a new religion
- Isolating themselves from family and friends
- Talking as if from a scripted speech
- An unwillingness or inability to discuss their views
- A sudden disrespectful attitude towards others
- Increased levels of anger
- Increased secretiveness, especially around internet use

- Expressions of sympathy for extremist ideologies and groups, or justification of their actions
- Accessing extremist material online, including on Facebook or Twitter
- Possessing extremist literature
- Being in contact with extremist recruiters and joining, or seeking to join, extremist organisations

Children who are at risk of radicalisation may have low self-esteem or be victims of bullying or discrimination. It is important to note that these signs can also be part of normal teenage behaviour – staff should have confidence in their instincts and seek advice if something feels wrong.

If staff are concerned about a student, they will follow our procedures set out in Safeguarding and child protection policy, including discussing their concerns with the DSL.

Staff should **always** act if they are worried.

Potential indicators include:

- Use of inappropriate language
- Possession of violent extremist literature
- Behavioural changes
- The expression of extremist views
- Advocating violent actions and means
- Association with known extremists
- Seeking to recruit others to an extremist ideology

Staff may also become concerned about the content of a student's written work (including drawings).

**The Extremism and Radicalisation policy is available on request.**

## **Substance Misuse**

[Substance misuse, Sept 20A](#)

Drugs & alcohol often play a role in the lives of young people through curiosity, experimentation, recreational or problematic use. Not every young person develops problems; not all experimentation leads to continued use or misuse. However, for some, substance misuse can contribute to:

- Poor mental health and emotional wellbeing
  - Issues at school, college or work
  - Breakdown of family and peer relationships
  - Engaging in further risky behaviours
- Vulnerable young people include those who:
- are involved in anti-social behaviour or the criminal justice system
  - are or were 'Looked After' by the local authority

- are excluded from mainstream education
- go missing from education, home or care
- are homeless
- are being sexually or criminally exploited
- have family members who misuse substances All young people should receive good education, information and advice about substance use & early support and specialist help where necessary.

### **Reasonable force, searching & screening**

Information on using reasonable force searching and screening can be found in the Sheffield Children Safeguarding Partnership document below. Reference to this can also be found in the school behaviour policy.

[Reasonable force, searching & screening, Sept 20A](#)

Reasonable force describes actions that involve a degree of physical contact with students e.g.:

- Control: passive or active physical contact
- Restraint: hold physically or control
- Reasonable in the circumstances: using no more force than needed Staff should avoid acting in a way that might cause injury, but in extreme cases it may not be possible.

All staff accompanying students on an education trip have a legal power to use reasonable force if authorised by the Head of School. Staff should use their professional judgement of each situation to make a decision to physically intervene or not. They should avoid causing injury, pain or humiliation, wherever possible. Settings do not require parental consent to use force on a student.

Reasonable force can be used to prevent students from hurting themselves or others, from damaging property or from causing disorder, e.g.

- Disrupting an event, trip or visit
- Leaving the classroom where this would risk their safety or disrupt others
- Attacking someone
- Restraining a student at risk of harming themselves through physical outbursts
- Stopping a fight

Reasonable force can also be used to remove disruptive students if they have refused an instruction to leave class.

### **Checking the identity and suitability of visitors**

[Safer Recruitment, Sept 20A](#)

All visitors will be required to verify their identity to the satisfaction of staff.

If the visitor is unknown to the setting, we will check their credentials and reason for visiting before allowing them to enter the setting. Visitors should be ready to produce identification.

Visitors are expected to sign in and wear a visitor's badge.

Visitors to the school who are visiting for a professional purpose, such as educational psychologists and school improvement officers, will be asked to show photo ID and:

- Will be asked to show their DBS certificate, which will be checked alongside their photo ID; or
- The organisation sending the professional, such as the LA or educational psychology service, will provide prior written confirmation that an enhanced DBS check with barred list information has been carried out

All other visitors, including visiting speakers, will always be accompanied by a member of staff. We will not invite into the school any speaker who is known to disseminate extremist views, and will carry out appropriate checks to ensure that any individual or organisation using school facilities is not seeking to disseminate extremist views or radicalise students or staff.

### **Private fostering & host families**

[Private fostering & host families, Sept 20A](#)

### **Non-collection of children**

If a child is not collected at the end of the session/day, we will:

- Endeavour to contact the family of the child to ascertain their whereabouts
- Use the additional contacts on the school system
- If contact cannot be made then an emergency home visit may be necessary
- Ensure contact is made and the child is safe.

### **Missing students**

Our procedures are designed to ensure that a missing child is found and returned to effective supervision as soon as possible. If a child goes missing, we will:

- Follow the Children missing in Education procedures (CME)

## **Appendix 5: Serious Case Review**

### **Serious Case Review Process**

A Serious Case Review will take place for every case where abuse or neglect is known or suspected and either:

- A child dies
- A child is seriously harmed and there are concerns about how organisations or professionals worked together to safeguard the child.

The Sheffield Children Safeguarding Partnership are responsible for initiating a serious case review, and all partner organisations and agencies are responsible for identifying cases of concern that may meet the SCR criteria.

Robust safeguarding procedures are in place at Handsworth Grange Community Sports College to ensure that serious safeguarding incidents are identified and appropriate notification effected by the DSL in school.

The purpose of a SCR is to:

- Identify improvements which are needed and to consolidate good practice
- Translate the findings from the SCR into programmes of action which lead to sustainable improvements and the prevention of death, serious injury or harm to children.

SCR are not inquiries into how a child died or was seriously harmed, or who is culpable. These matters are for coroners and criminal courts to determine.

Once it is apparent that a SCR may be needed, a Child Safeguarding Practice Review Panel will be convened and a representative from Handsworth Grange Community Sports College may be invited to join the panel. The representative should provide full and comprehensive information about the school's involvement with and knowledge of the family to this initial meeting, either directly, or via a Local Authority representative as required.

If it is agreed to recommend that the SCR criteria have been met, then the review panel will determine the scope of the SCR and terms of reference. The review panel will decide which organisations, agencies and professionals should contribute to the review.

Handsworth Grange Community Sports College may be asked to provide an Individual Management Report and chronology for the SCR, and to also provide a representative on the Child Safeguarding Practice Review Panel.

The person responsible for this and the person who also attends the preliminary panel, should be a member of the Senior Leadership Team within school and someone who has had no involvement with the case or have been the line manager of school staff involved in the case. This person will need to collect and collate files (including any existing safeguarding files) and correspondence pertaining to the child(ren) concerned and their family immediately after notification, in order to commence work on the Individual Management Report and chronology. The person may also need to interview key members of staff

Their independence from the case must be explicit and clearly recorded within their report.

Alternatively Handsworth Grange Community Sports College may be asked to present all collected and collated files and correspondence to a Local Authority representative who will perform this function on the school's behalf.

The review panel will notify the school (or Local Authority) representative of the required format for the chronology of the report at the start of the review and time scales for presenting the report. The representative may have to attend a briefing session prior to commencing their report to ensure that the terms of reference are clear and understood. They may also have to present an early draft of the report to the Child Safeguarding Practice Review Panel.

The SCR Action Plan will be developed directly from the recommendations of the final SCR report. This will include any individual recommendations for school. The Action Plan should be realistic and set out clearly the responsible agencies/individuals and specific dates by which actions will be undertaken as well as the desired outcomes.

The representative from the Handsworth Grange Community Sports College Leadership Team will ensure that any actions for school are carried out and implemented within the set time scales set by the review panel.

The above process should also be followed where it has been decided by the Sheffield Children Safeguarding Partnership that criteria for a Serious Case Review have not been met, however it is deemed necessary for a Learning Lessons Review to be conducted.
