

# Assessment within Computer Science

## **Day to day Formative Assessment**

- Retrieval Activities will be present at the beginning of all lessons. Feedback on responses will include correcting , scaffolding and extending responses.
- Live written feedback included in all Computer Science lessons in all keystage
- Live differentiated questioning used to check pupil understanding within lessons
- Exam question application included in the majority of KS4 lessons.

## **Termly summative Assessment at Key stage 3**

- Pupils are assessed by formal examination which encompasses 2 topics worth of learning
- Small and low stakes Topic assessments will be conducted as part of the learning within the lesson each half term.

## **Termly summative Assessment at Key stage 3**

- Mini assessments are completed at the end of each topic to check for knowledge development within the topic
- Exam assessment is used at the end of the school year, November mock exam series and March mock exam series to check understanding overall
