

HEALTH & SOCIAL CARE CURRICULUM INTENT

HGCSC Mission	Exceptional education for every child, every day
Priority	Provide a broad and balanced curriculum that challenges everyone

HEALTH & SOCIAL CARE DEPARTMENT INTENT

To develop as kind, caring, and independent learners with the Health and Social Care knowledge and understanding to successfully make their way in the world.

KIND AND CARING	ENGAGED AND INDEPENDENT	KNOWLEDGE AND UNDERSTANDING
Attitudes are considered most important in health and social care, including the care values of respect and dignity. Students to develop as kind and caring individuals with an understanding of others needs and how to support and help them.	To be confident and to work independently. To engage in the subject and to develop themselves.	Know a range of subject specific vocabulary and be able to use it accurately. Pupils will develop their knowledge and understanding of Health and Social Care topics.

CURRICULUM AIMS

At the end of KS4 the aim is that students have been given the opportunity to develop their understanding and knowledge of Health and Social Care and how it affects individuals and that they can apply these skills to further education or their chosen career. It is also the aim to develop students as kind and caring individuals who are engaged with others.

SKILLS

The Award gives learners the opportunity to develop sector-specific knowledge and skills in the following areas:

- Development of key skills that prove aptitude in health and social care such as interpreting data to assess an individual's health
- Designing health plans to improve an individual's health and wellbeing
- Practise applying the care values to real life situations and scenario
- Identify explain and evaluate different aspects of growth and development across the life stages
- Explore the different factors that affect an individual's growth and development

KNOWLEDGE

- Understand human growth and development across all life stages and the factors that affect it. Investigate how individuals deal with life events and the impact of these.
- Understand the different types of health and social care services and the barriers individuals face accessing these. Demonstrate care values and review own practice.
- Interpret health indicators and factors that affect health and wellbeing. Person-centred health and wellbeing improvement plans
