

Culture Challenge

What is 'culture'?

1. Art, music, literature, etc., thought of as a group.
2. The customs and beliefs, art, way of life and social organisation of a particular country or group.

Experiences outside of the classroom are extremely valuable. They can help you to develop knowledge, skills, confidence and vocabulary that help you to connect with the wider world. Employers feel that cultural experiences are important. They can be lots of fun too!

Challenge: Take part in as many cultural experiences as possible. You should aim for 7 in year 7, 8 in year 8, 9 in year 9 etc. You can choose which experiences to collect by going to our website. Ask a teacher or adult to verify your experiences by signing each box once you have described your experiences.

Happy Challenge Hunting!
